

# View, Save, and Print Your Hours of Service Logs Online!

You can view, save, and print your Hours of Service logs online, using Omnitracs Hours of Service. All you need is an Internet browser, an Internet connection, and your driver credentials are the same as the ones you use on the unit. If you have a printer attached to your computer, you can print your logs.

Click on your browser and type:

<https://dhos.omnitracs.com/hos-web-ui/c/dhm/index.html>

Next, type the company name as:

**mountain river trucking**

Next, type the **Driver ID** and **password**:

You will use your driver ID and password that you use to log in to your mobile unit, along with your last name as it displays on your mobile unit after you log in.

## **DRIVER LOG REPORT**

To view, save and print your logs, click the Reports tab, select a date range and log format, and then click **Run Report**. The system will generate a PDF file that you can save and/or print.

**NOTE:** Adobe Reader is required to view the PDF reports.

Make sure you run and save your log report at least once every four – five months. Omnitracs and Mountain River Trucking are only able to obtain the stored data going back six months.
